Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the prior art of record singly or in combination failed to teach or suggest a luminous panel having all the structural features as presented in independence claim 1 in which includes: a luminous panel having at least one plate, formed from a material capable of transmitting, at least partially, light emitted in the visible spectrum, said plate comprising two opposite planar faces, a first face and a second face, connected at their periphery by an edge face, said first face constituting the display face of the panel, a reflecting surface disposed facing the second planar face at a non-zero distance so as to form, between itself and this said second planar face, a layer of a transparent medium with an optical index lower than that of the material constituting said plate, and light source means capable of emitting light beams, at least in the visible spectrum, said light source means being substantially situated at the periphery of said plate and of said reflecting surface and designed to direct a first portion of the light beams towards said edge face and a second portion of said light beams into said layer, so that at least a portion of this second portion of light beams is reflected on said reflecting surface to be sent back towards said second planar face of said plate.

Claims 2-20 are allowed because being depended on base claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
